

ReMaTecAsia

Guangzhou, China, 24-26 september 2019

ReMaTec Asia

Reasons to participate:

- The Chinese remanufacturing infrastructure is being prepared for a substantial growth.
- There are an estimated 93.2 million passenger vehicles in China that are out of warranty.
- New sales keeps rising as Chinese GDP has been advancing 6,7% year on year. Remanufactured parts are a reliable middle way between expensive original parts on one side and cheap inferior imitation on the other side.
- ReMaTec Asia chooses a location in the heart of the automotive industry, Guangzhou.
- Benefit from value added services such as pre-arranged matchmaking appointments, an industry dinner, translation services and excursions to local remanufacturing companies.

Niels Klarenbeek, Director of ReMaTec:

"Asia will be a great asset for international remanufacturing organisations looking to enter the Chinese remanufacturing market. We now see opportunities in the Chinese domestic remanufacturing market because of multiple reasons. Sustainability is taken seriously by the Central Government. There have been substantial investments in remanufacturing zones like Lingang (Shanghai area), Wuzhou (Guangxi Province), Hejian (Hebei Province) and of course Guangzhou (Guangdong Province). As the domestic remanufacturing industry is getting towards maturity, there will be a vast demand for cleaning-, machining and diagnostic equipment, know-how and core management solutions. These are clear opportunities for the ReMaTec customer base in Europe and North America."

"This trade fair is a great opportunity for exhibitors to meet new business partners and to talk face-to-face with current relations. This will be the first remanufacturing fair in China and is the place where everyone comes to distribute to big and small companies."

Xie JianJun, Secretary General of CPRA

Co-located with AAG

The event will be co-located with Auto Aftermarket Guangzhou (AAG), the largest exhibition for automotive aftermarket in South East China with 20.000+ visitors and 1300 exhibitors.

About Guangzhou

China is currently the world's largest automotive producer, while Guangzhou is the major automobile production base and export base in China, and has obvious advantages of industry cluster.

Guangzhou is home to the Guangzhou Automobile Industry Group Co Ltd, a Chinese state-owned joint stock holding company that owns several Chinese automakers and one of the largest vehicle manufacturers in China. GAIG has partnerships with Fiat, Honda, Isuzu, Mitsubishi, and Toyota. These partnerships allow it to produce foreign-branded products for sale in China.
